IN THE RELIGIOUS WORLD

NEWS AND COMMENT.

The U. S. A. Committee of the Mission to Lepers in India and the East, of which Dr. William Jay Schieffellin, of New York is chairman, and Mr. Fleming It. Revell, the New York publisher, is treasurer, announce that Miss Bertha G. Johnson, formerly engaged in work under the Presbyterian Foreign Mission Board in India, has been appointed as travelling sacretary.

Twenty-seven of these asylums for lepers are managed by missionaries under U. S. A. Foreign Mission boards. Work in these stations slone costs the Mission to Lepers 37,000 annually. Of this amount, less than half has been secured in any single year from donors in our own country, the balance comiting from contributors living in Canada and Great Britain. The economy of management is shown by the fact that a gift of 23 will support a leper a year in one of the avylums, and even a single dollar will simport a leper two weeks.

Although it is almost three years since

Although it is almost three years since by. G. Camphell Morgan, of London, reached in New York, the crowds that rected him 'n Carnegie Hall March is no in Fifth Avenue Church March is nowed that he still holds the same place a ever in the hearts of Protestant New Orkers. He will be in this country again of lecture at Northfield this summer,

RELIGION IN AMERICA.

By THE HONORABLE JAMES BRYCE,

America is no doubt the country in which intellectual move-ments work most swiftly upon the masses and the country in which the loss of faith in the invisible might produce the com-pletest revolution, because it is the country where men have been least wont to revere anything in the visible world. Yet America seems as unlikely to drift from her ancient moorings as any coun-try of the Old World. try of the Old World.

It was religious zeal and the religious conscience which led It was religious zeal and the religious conscience which led to the founding of the New England colonies nearly three cen-turies ago—those colonies whose spirit has in such a large meas-ore passed into the whole nation, Religion and conscience have been a constantly active force in the American Commonwealth ever since; not, indeed, strong enough to avert many moral and political evils, yet at the worst times inspiring a minority with a courage and ardor by which moral and political evils have been held at bay, and in the long run generally overcome.

M. C. A. Rooms.

The annual reception of the Knights of Sir Godfrey, the only secret religious fraternal order for boys in the world, was held last Friday night at the boys' department of the Y. M. C. A., with an attendance of more than fifty.

Mrs. Albert M. Chesley, who has been giving the knights a course of study in foreign missions, headed the receiving line, and refreshments were served by Mrs. J. W. Sutherin.

T. T. Wang, furmer president of the Shanghai Y. M. C. A., and now in charge of the Chinese students maintained in this country by the Boxer indemnity fund, gave an address on the progress which his charges are making. William Radford, of the British Embanay, gave

Radford, of the British Emonary, readings.

Remarks were made also by Ernest the Fortier, the king of the order, and Edition win Wilde, its crown prince.

of Destitute.

Arrangements are being perfected by the management of the Belasco Theater for a benefit performance, to be given at that playlouse on Friday afternoon next, for the relief of the sufferers from the dovastating floods in Ohio. It is expected that all of the local theaters will co-operate in the plan, and that festures from all of the productions which will be current on their stages next week will have a place on the programme.

It is practically certain that Miss Noral layes will render a number of soings, and the theories in the management of the superior of the super
